A little education about the circulation of the Polk City Directory®.

FREQUENCY: Defined as the number of times a message or advertisement receives exposure by an average person within a specified time period.

THE TRUE VALUE of advertising circulation is circulation consulted (Frequency).

TO BE EXACT, by actual survey in twenty-four average American cities, by actual count each Polk City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for three hundred and five days, therefore:

$$\begin{array}{r} 1000 \\ \times 3\frac{1}{2} \\ \times 305 \\ \hline = 1,067,500 \end{array} \quad \text{ANNUAL CONSULTATIONS OR CIRCULATION CONSULTED.}$$

Before a prospect will BUY, they must mentally travel through 6 states of mind.
Get through to them with Repeating Billboard Advertising.

Take advantage of the power of PLANNED REPETITION with Repeating Billboard Ads.

With a repeating billboard ad, your company will be noticed again and again as users thumb through the Polk City Directory. Your ad will repeat throughout the Alphabetical and Street Guide sections.

Your ad is highly visible as it can appear on the top of the page, or on the outside edge of a page...the choice is yours!

DID YOU KNOW?

62% of all ideas are accepted only after they are presented for the 6th time. How do we know planned repetition works?

Planned repetition worked in school.

Spelling — Reading — Multiplication Tables — Etc.

Planned repetition worked at home.

Tying Shoes — Nursery Rhymes — Personal Habits — Etc.

Use planned repetition for your business!

Without planned repetition, if you gave your idea to 100 people just one time...

1 day later...25% would not recollect.

2 days later...50% would not remember.

4 days later...85% would not recall.

7 days later...97% would have forgotten.

Just the FAQ's

Answers to Frequently Asked Questions (FAQ's):

How are streets listed in the directory?

The Street Guide lists streets in alphanumeric order with numbered streets appearing first.

Identical street names are listed alphabetically by town name. For example, 200 S Main St in Ann Arbor would appear before 200 S Main St in Chelsea.

Within a city, streets appear alphabetically beginning with the primary street name. For instance, Main St will appear before E Main St which is before N Main St and so on.

How do you list streets that are referred to in more than one way?

We adhere to postal service naming standards, so there will be instances where one side of the street has one name and the other side of the street has a different name.

What is a carrier route?

Carrier routes are one of the ways the postal service identifies a deliverable mail address. They are shown in the directory, whenever available, in the Street Guide.

Are unlisted phone numbers in the directory?

Unlisted phone numbers will not be provided. We respect the right of individuals to not have their phone number published. Furthermore, residents and businesses whose address information is unavailable *will not appear* in the Street Guide.

What if someone's mailing address is different than their physical address?

We standardize each address with U.S. Postal Service standards and list the physical address in the directory. Rural route numbers can be obtained from the carrier route information. Post office boxes are only used when no other physical address is available.

What if I do not want to be listed in the directory?

Polk takes an active role in ensuring the responsible use of consumer information and honors all requests from consumers who do not want to be included in the Polk City Directory. Consumers who do not wish to be listed can fill out and return the change of address form in the back of the directory, checking the box indicating that they do not want to be listed.

Where does the demographic information come from?

All demographic information is obtained from a variety of public and private data sources, including United States census figures. The information is adjusted quarterly based on several economic indicators.

The determination of the
 need for legal services and the
 choice of a lawyer are
 extremely important decisions
 and should not be based solely
 upon advertisements or
 self-proclaimed expertise. This
 disclosure is required by rule of
 the Supreme Court of Iowa.

A description or indication of
 limitation of practice does not
 mean that any agency or board
 has certified such lawyer as a
 specialist or expert in an
 indicated field of law practice,
 nor does it mean that such
 lawyer is necessarily any more
 expert or competent than any
 other lawyer. All potential
 clients are urged to make their
 own independent investigation
 and evaluation of any lawyer
 being considered. This notice is
 required by rule of the Supreme
 Court of Iowa.

The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise. This disclosure is required by rule of the Supreme Court of Iowa.

A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, nor does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa.

Street Guide

The Street Guide will help you:

Pinpoint current customers or prospective new customers.

This is a listing of addresses in your area including names, addresses, phone numbers, homeowners, multiple adults in household, years at residence, and new neighbors.

Cross streets help you identify the exact location of addresses you are looking for.

The street summary at the bottom of each street lets you know whether the street is primarily business or residential occupied.

How to use the Demographic Summary for sales prospecting

How can I find my best potential customers?

1. Establish the profile of your best potential customers.

Individuals over 45 years old who have lived at the same residence for more than 10 years are most likely to buy my products. (Illustration only. You determine profiles based on your needs.)

2. Find out which carrier routes best meet your potential customer profile by searching for these characteristics in the Demographic Overview tables.

		Neighborhood Composition								
Zip Code	Carrier Route	Total Business Count	Total Household Count	Total Person Count	Household Age	Percent Households w/Children	Median Age Adults 18 and Over	Average Length of Residence	% Length of Residence 0-2 Years	% Length of Residence 10+ Years
49707	C001	257	401	1226	Retired	35	47	6	37	21
49707	C002	420	338	1048	Middle	25	48	8	30	53
49707	C003	331	289	952	Middle	32	46	9	19	39
49707	C004	390	295	932	Middle	31	46	8	26	46

All the carrier routes meet the age profile, but C002 has the greatest percentage of individuals who have lived at the same address for more than 10 years.

3. Look at the Guide to Carrier Routes to identify all the neighborhoods in this Carrier Route. *In this example we are looking for C002.*

Just the FAQ's

Answers to Frequently Asked Questions (FAQ's):

How are streets listed in the directory?

The Street Guide lists streets in alphanumeric order with numbered streets appearing first.

Identical street names are listed alphabetically by town name. For example, 200 S Main St in Ann Arbor would appear before 200 S Main St in Chelsea.

Within a city, streets appear alphabetically beginning with the primary street name. For instance, Main St will appear before E Main St which is before N Main St and so on.

How do you list streets that are referred to in more than one way?

We adhere to postal service naming standards, so there will be instances where one side of the street has one name and the other side of the street has a different name.

What is a carrier route?

Carrier routes are one of the ways the postal service identifies a deliverable mail address. They are shown in the directory, whenever available, in the Street Guide.

Are unlisted phone numbers in the directory?

Unlisted phone numbers will not be provided. We respect the right of individuals to not have their phone number published. Furthermore, residents and businesses whose address information is unavailable *will not appear* in the Street Guide.

What if someone's mailing address is different than their physical address?

We standardize each address with U.S. Postal Service standards and list the physical address in the directory. Rural route numbers can be obtained from the carrier route information. Post office boxes are only used when no other physical address is available.

What if I do not want to be listed in the directory?

Polk takes an active role in ensuring the responsible use of consumer information and honors all requests from consumers who do not want to be included in the Polk City Directory. Consumers who do not wish to be listed can fill out and return the change of address form in the back of the directory, checking the box indicating that they do not want to be listed.

Where does the demographic information come from?

All demographic information is obtained from a variety of public and private data sources, including United States census figures. The information is adjusted quarterly based on several economic indicators.

“It could happen to you” scenario #2:

You are in your first week at a new sales job and are anxious to prove your worth. You are given a list of names and phone numbers to call, but the quality of the list is questionable. The other sales people in the office have complained about how old and outdated the list is, and your first few calls seem to validate their complaints. Before proceeding too far into the list you decide to pursue another avenue. The first day on the job you were shown a Polk City Directory® and told it was a reference tool. After a brief search you find it. While skimming through its five sections you realize you’ve got more than a reference tool in your hands, so you decide to put it to good use.

The Telephone Key lists all the telephone numbers in numerical order and lists the names of the residents or businesses at those numbers. You are interested in residents only, so you call the first resident on the list to see if the quality of the list is better than the original cold calling list you received.

The first residential number belongs to Marisa Kotter in Oakland Hills. You get an answering machine, so you make a note of it and will try again later. The second number is a hit, but they’re not interested. The third hangs up before you can even warm up. There’s no answer at the fourth household, but number five proves to be a winner. Tim Jackson is interested in hearing more and has agreed to an appointment. Your first ten calls look something like this:

The information in the Polk City Directory has proven to be a winner. Two appointments in your first ten calls, and you’re just getting started. Reference tool, huh? Sure, you’ll refer to it, but as a prospecting tool. The question is whether or not you’ll want to share it with your co-workers once they ask for the secret to your success.

▲ New neighbor
 [5] Years at address
 ▲ Homeowner

You know that a satisfied customer is one of your best sources for business referrals, and is likely to tell their neighbors about positive business experiences they have had.

How can you quickly find the neighbors of your longtime customers Norman & Maxine Leonard?

Look up the Leonard's address in the STREET GUIDE. By doing so you will also find the names and addresses of their neighbors. The streets are listed alphabetically, so it's easy to find the addresses you are looking for. You will also find the cross streets, so you will be able to locate and visit these prospective new customers in person.

The STREET GUIDE is also useful for any type of fund-raising or canvassing, and for planning delivery routes.

You'd like to increase your commercial business clientele, but you're only interested in companies with more than 20 employees in certain types of businesses.

How do you find these businesses?

Turn to the BUSINESS DIRECTORY, which includes a list of the businesses in town. First, locate the headings of the types of businesses you're interested in. Next, scan the businesses for those with over 20 employees. Once you've identified your prospects, locate the name and titles of the owners and key officers — those with the authority to purchase your products!

You can also use it to buy from local businesses, just like you'd use the yellow pages. Information-packed advertisements provide a wealth of product and service information you'll need to make a wise purchase.

Who is Laura?

To find out who Laura is, or what company she represents, look to the TELEPHONE KEY. It's a numerical listing of all the phone numbers in your area. Now you know Laura is from "Laura's Boutique", one of your best customers.

You are planning a direct mail program and your business experience has shown that your best customers are in a technical/managerial job and have a household income over \$50,000.

How can you find information on the type of profession and income?

The DEMOGRAPHIC SUMMARY is divided into three sections, Neighborhood Composition, Education and Income, and Housing. The Education and Income section shows the percentage of individuals employed in professional/technical/managerial jobs and median household income information (*plus many other demographic components*), grouped by carrier routes. You can then identify these carrier routes in the STREET GUIDE to improve the quality of your mailing.

CREATE MAILING LABELS, PHONE LISTS, AND OTHER PRINTED MATERIALS.
